

ARTIFICATION PROJECTS:

CORE FOCUS:

Connect people and places through the design of community spaces & a vibrant arts culture. Embrace creativity, connection, and contribution as cornerstones of community growth.

CORE VALUES:

ARTi is an arts and cultural organisation with a difference

Creation: Our approach revolves around providing a space for creativity to flourish. Through managing a diverse range of spaces, such as high street galleries, park-based venues, community gardens, street parades, and pop-up events, we create a vibrant tapestry of cultural energy throughout the city. This sets the stage for unique opportunities to create, connect, and contribute, fostering an environment where artistic expression thrives.

Connection: We pride ourselves on working with a diverse group of participants and partners, resulting in a rich and inclusive sense of community and ownership. Our collaborations span from universities, councils, developers, and key decision-makers to schools, community groups, and older people's homes. This diversity fosters a broader perspective, cross-pollination of ideas, and a shared commitment to placemaking .

Contribution: Empowerment and legacy lie at the heart of our core value of contribution. We are dedicated to giving back, teaching, sharing, and supporting others to make a lasting difference. Through our programs, we inspire and empower individuals and communities to create their own ripples of transformation, leaving behind a legacy of growth and social impact.
